CLOSER'S PLAYBOOK · CALL FLOW

10 steps on every sales call

Use their words. Every pillar ties back to what they told you.

1. **Set the Frame** · take control
   "You booked a call about [goal]. Still a good time?" · "What caught your attention?" · "What were you hoping would happen?"

2. **Snapshot** · where they are now
   "What are you doing for this now?" · "How long like that?" · "What shifted to make you look now?"

3. **Pressure Points** · find the problem
   "What do you mean by that?" · "How long has that gone on?" · "What impact has it had?"

4. **Break the Myth** · more of the same won't fix it
   "Will grinding harder with this setup get you there? Why?"

5. **Vision Lock** · the better future
   "What would you really want to make?" · "What would that allow you to do?" · "How would that feel?"

6. **Anchor Points** · logic + emotion
   "How close are you to [goal] with what you have now?" Wait for **"not close"**. "Why is that?"

7. **Gap Check** · back to earth
   "What happens if nothing changes in 3, 6, 12 months?" · "Are you willing to settle for that?"

8. **Cost of Staying Stuck**
   "How would that affect you? Your family?" · "Why fix it now, not later?"

9. **Solution Path** · 3 pillars, no feature dump
   "You said [problem], which makes you feel [emotion]. That's why we focus on..." · "Does that make sense?"

10. **Decision Point** · close
    "The investment so you can [main goal] is [$X]." Then stay quiet. Objections come next.

Cadence and daily targets

Speed to lead (day 1)

- Call within **2–5 minutes** of the lead coming in.
- No pick-up: call again at **60 min**, then at **3 hours**.
- Text: "Saw you checked out [offer]. 10 mins later today or tomorrow to see if it's a fit?"

Reactivation (14 days)

Day 1	Call + text (pattern interrupt)
Day 2	Email: case study from their industry
Day 3	Call + voicemail with value
Day 4	Text two slots: "2:15 or 3:40 better?"
Day 6	Call with a new angle (different problem)
Day 8	Email + 90-second Loom
Day 10	Call: "last slot this week" (only if true)
Day 12	Text: "Still relevant? Yes/No"
Day 14	Final email: close the loop

Daily targets

150	dials (750 a week)
12	live conversations
3	appointments booked
5	follow-ups scheduled
70%+	show rate · **20–30%** close rate

Dialling rules: no local-presence tricks. After 10 dials to one lead, pick-up drops under 3%: switch channel instead.
Week: Mon targets + roleplay · Tue–Thu full cadence · Fri pipeline audit + objection log.
Log it all in the Remote Sales Tracker.
