CLOSER'S PLAYBOOK · CALL FLOW

10 steps on every sales call

Use their words, and tie everything back to what they told you.

1. **Set the Frame** · take control
   "Hi [Name], it's [your name] from [company]. You booked a call with us about [goal]. Is now still a good time?" · "What caught your attention when you saw our ad?" · "What were you hoping would happen from this call?"

2. **Snapshot** · where they are now
   "What are you currently doing to [reach goal]?" · "How long have you been doing it that way?" · "What changed recently that made you start looking?"

3. **Pressure Points** · find the problem
   "What do you mean by that?" · "How long has that been going on?" · "What impact has that had on your business?"

4. **Break the Myth** · more of the same won't fix it
   "How many hours a week are you working right now?" · "Do you think working harder with your current setup will get you there? Why?"

5. **Vision Lock** · the better future
   "How much would you ideally like to earn each year?" · "What would that allow you to do?" · "How would that make you feel?"

6. **Anchor Points** · logic + emotion
   "With what you have in place now, how close are you to [goal]?" Wait for **"not close"**. "Why do you think that is?"

7. **Gap Check** · back to earth
   "What happens if nothing changes in the next 3, 6 or 12 months?" · "Are you willing to settle for that?"

8. **Cost of Staying Stuck**
   "How would that affect you and your family?" · "Why is it important to fix this now rather than later?"

9. **Solution Path** · 3 pillars, no feature dump
   "You said [problem] makes you feel [emotion]. That's exactly why our program focuses on three pillars..." · "Does that make sense?"

10. **Decision Point** · close
    "The investment to help you [main goal] is [$X]." Then stop talking and wait for their answer.

CLOSER'S PLAYBOOK · FOLLOW-UP

Cadence and daily targets

Speed to lead (day 1)

- Call within **2–5 minutes** of the lead coming in.
- No pick-up: call again at **60 min**, then at **3 hours**.
- Text: "Hi [Name], I saw you checked out [offer]. Do you have 10 minutes later today or tomorrow to see if it's a good fit?"

Reactivation (14 days)

Day 1	Call + text (pattern interrupt)
Day 2	Email: case study from their industry
Day 3	Call + voicemail with value
Day 4	Text two times: "Would 2:15 or 3:40 work better?"
Day 6	Call with a new angle (different problem)
Day 8	Email + 90-second Loom
Day 10	Call: "I have one slot left this week" (only if true)
Day 12	Text: "Is this still relevant for you? Yes or no?"
Day 14	Final email: close the loop

Daily targets

150	dials (750 a week)
12	live conversations
3	appointments booked
5	follow-ups scheduled
70%+	show rate · **20–30%** close rate

Dialling rules: don't use local-number tricks. After 10 dials to the same lead, the chance of a pick-up drops below 3%, so switch to text or email.
Week: Mon targets + roleplay · Tue–Thu full cadence · Fri pipeline audit + objection log.
Log it all in the Remote Sales Tracker.
